

Sick of Downtime?

Do these issues plague your business?

Network Neglected? Is yours perceived as a "necessary evil" and not as an integral part of improving business performance?

Downtime Impact? Are IT outages distracting your staff from their core focus, or prohibiting them from working efficiently?

Distracted Employees? Does your staff rely on other non-IT employees to deal with distracting IT problems?

Wasted Time? Do staff productivity levels drop dramatically during IT outages, interruptions or inefficiencies?

Security Fears? Worried that vulnerable servers, laptops or PCs may be putting your organization or company data at risk?

Lost Data? What would be the impact of a hardware failure or if a laptop was stolen and critical business data was lost?

Untimely Network Failures? Not knowing what will fail and when, and then having to wait for a technician to arrive?

Micro One's Managed Services Program has a cure for your IT problems.

- 24/7 Network, Workstation and Server Monitoring
- Anti-Virus Management
- Network Security
- Secure Off-site Data Back-up
- End User Help Desk Services

Invest in uptime and keep your business in good health year-round. Micro One's Managed Services program diagnoses potential problems, helping to eliminate down time. We care for your business with experience and reliability.

Call Micro One Computer Center today at 570.321.7500 or 800.326.9205 for a cost-effective and trouble-free network solution.
